DESIGN IN RESIDENCE

CC agency — *creative consulting agency*, is opening the doors to **DESIGN IN RESIDENCE**, located at **Antoine Dansaert 64, 1000 Brussels**.

The first design residence in Belgium in a residential setting, is a design showroom where **architecture, design, and art converge** within a **curated experience**. *It is a space where collectors, architects, interior designers, international clients, and other professionals are welcomed by appointment*, a place where every encounter is rooted in dialogue, context, and a shared appreciation for exceptional design.

This September, **DESIGN IN RESIDENCE** will open at **Dansaert 64** in **Brussels**, introducing a new platform for design, art, and architecture. Beyond the conventional gallery format, *this residence treats the interior as a curated space where selected works engage in direct dialogue with architecture, materiality, and one another*. CC investigates how **furniture, objects, artworks, and spatial interventions** come together through a careful selection of **contemporary practices**.

Initiated by the **CC Creative Consulting agency**, the *residence* extends its curatorial approach into a physical space, featuring designers, artists, and collections chosen for their distinctive authorship, cultural relevance, and lasting aesthetic value. *Only a select number of Belgian-based designers and collections will be showcased within this residence*.

The presentation is a distinctive, recognisable design language. The collections marry craftsmanship with attention to detail and connect to an *international network* that is welcomed on location.

CCIICC
